Protection of Civilian Populations Against Bombing From the Air in Case of War, League of Nations, September 30, 1938

PROTECTION OF CIVILIAN POPULATIONS AGAINST BOMBING FROM THE AIR IN CASE OF WAR

Unanimous resolution of the League of Nations Assembly, September 30, 1938.

The Assembly,

Considering that on numerous occasions public opinion has expressed through the most authoritative channels its horror of the bombing of civilian populations;

Considering that this practice, for which there is no military necessity and which, as experience shows, only causes needless suffering, is condemned under the recognised principles of international law;

Considering further that, though this principle ought to be respected by all States and does not require further reaffirmation, it urgently needs to be made the subject of regulations specially adapted to air warfare and taking account of the lessons of experience;

Considering that the solution of this problem, which is of concern to all States, whether Members of the League of Nations or not, calls for technical investigation and thorough consideration;

Considering that the Bureau of the Conference for the Reduction and Limitation of Armaments is to meet in the near future and that it is for the Bureau to consider practical means of undertaking the necessary work under conditions most likely to lead to as general an agreement as possible:

I. Recognizes the following principles as a necessary basis for any subsequent regulations:

1) The intentional bombing of civilian populations is illegal;

2) Objectives aimed at from the air must be legitimate military objectives and must be identifiable;

3) Any attack on legitimate military objectives must be carried out in such a way that civilian populations in the neighbourhood are not bombed through negligence;

II. Also takes the opportunity to reaffirm that the use of chemical or bacterial methods in the conduct of war is contrary to international law, as recalled more particularly in the resolution of the General Commission of the Conference for the Reduction and Limitation of Armaments of July 23rd 1932, and the resolution of the Council of May 14th, 1938.
